Charter to Roatan
TR7520-07/TR7521-07

PILOT INFORMATION FOR THE FLIGHTS TO
Roatan
17-31 August 2007

Introduction:

TCA-Charter has a short time contract for flying passengers for ship cruises to Roatan on a regularly basis. These flights will be last for two weeks from August 17 till August 31, but could be extended further, or become a regularly TCA flight in the future, which depends on the passenger counts during these flights.

The Aircraft:

We will either use a standard A320, or a B737-800 for these flights. Right now we have reservations for up to 140 PAX each flight and direction.

The Flights:

These flights are direct flights from Memphis to Roatan and vice versa. Take into consideration for your flight planning that either Goloson Intl. Airport, La Ceiba, or La Mesa Intl. Airport, San Pedro Sula, will be your alternate destinations.

The Schedule for the flights:

| Flight Number | Departure Airport | Departure Time | Arrival Airport | Arrival Time |
|---------------|-------------------|----------------|-----------------|--------------|
| TR7520-07 | KMEM | 14:05 UTC | MHRO | 17:25 UTC |
| TR7521-07 | MHRO | 19:35 UTC | KMEM | 22:55 UTC |

Flight Operation Center 2003 Files:

Flight Operation Center 2003 is a powerful Payware program for flight planning. If you don't call it your own just disregard the information:

Included in the zip-file are the files for use with FOC including all Flight Plans and the schedules. Extract them to the FOC main folder and load the schedule and calculate your flights. Edit the aircraft if necessary.

Additional Scenery:

Refer to the August issue of [Island Breezes](#) page 10 where to get everything you need for Roatan.

Memphis Airport scenery: <http://library.avsim.net/download.php?DLID=41932>

Reporting this flight:

Report this flight as you are used to with the new online flight reporting system, or via e-mail with a generated report from the offline reporter to ofr@tradewind.org.
